Please find below and/or attached an Office communication concerning this application or proceeding.

Commissioner for Patents

The reply filed on June 12, 2005 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s):

The substitute specification filed June 12, 2005 has not been entered because it does not conform to 37 CFR 1.125(b) and (c) because:

1) no statement is made that the substitute specification includes no new matter.

2) markings have not been provided in the substitute specification showing all the changes relative to the immediate prior version of the specification of record. The text of any added subject matter must be shown by underlining the added text. The text of any deleted matter must be shown by strike-through except that double brackets placed before and after the deleted characters may be used to show deletion of five or fewer consecutive characters. The text of any deleted subject matter must be shown by being placed within double brackets if strike-through cannot be easily perceived. An accompanying clean version (without markings) must also be supplied. Numbering the paragraphs of the specification of record is not considered a change that must be shown pursuant to this paragraph.

The substitute specification filed June 12, 2005 is objected to because page 1 of the substitute specification begins in the middle of a sentence with the words "and disturb the useful signal;...". The entire text of page 1 and a portion of page 2 of the originally filed specification has been inadvertently omitted. All of page 1 and page 2, lines 1-43 (through the word "overlap") must be re-inserted into the specification.

See 37 CFR 1.111. Since the above-mentioned reply appears to be bona fide, applicant is given ONE (1) MONTH or THIRTY (30) DAYS from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
